Details

Description

For ergonomic working the extremely comfortable stretcher rack (with patented ventilation system) is equipped with padded shoulder and lap belts, which can be adjusted individually to the operator. The large on/off switch on the side of the container is well attainable. Owing to the centrally arranged dust extraction hose the equipment can be used of right- and left-handed people as well. The 15 m long mains cable allows a large working radius even on stairs or scaffolds.

Features & Benefits

Patented carrying frame with Air Stream Comfort system padding

The ventilation pads reduce heat development on the back whilst the mesh with ventilation on three sides reduces perspiration by 25%.

Mobility

The BV 5/1 backpack vacuum allows unrestricted use in areas where conventional vacuum cleaners cannot be used.

The powerful BV 5/1 hybrid vacuum cleaner can be used with or without mains connection.
